USDA ANNOUNCES FUNDING

(Clarksville Volunteer Fire Department to Receive \$89,375 Loan and Grant)

Clarksville, Texas, October 30, 2002--Bryan Daniel, Texas State Director, USDA Rural Development announced that Clarksville Volunteer Fire Department has received a loan and grant through the agency's Community Facilities loan program. The effort is part of USDA's national program to help rural areas build and enhance essential community facilities.

"USDA Rural Development's Community Facilities program helps rural communities keep pace with the needs of their rising populations," said Daniel. "With lower populations and tax bases than urban areas, rural residents can utilize our programs to help provide essential public services that will enhance the quality of life for all rural residents."

The funds will be used to purchase a new rescue and structure pumper truck. The population of Clarksville is approximately 3,883.

In Fiscal Year 2001, a total of \$6.3 million in direct and guaranteed loans were obligated. Community Facilities loan funds may be used to construct, enlarge or improve community facilities for health care, public safety, and public services. These loans and grants are made to public entities and non-profit organizations. Examples of eligible projects include rural
